

Teaching Strategies GOLD

www.teachingstrategies.com

Teaching Strategies GOLD is designed for *Ages 0 – 5*. Ratings are based on teacher’s observations, documentation of their observations, and samples (or portfolios) of children’s work. A software package enables programs to aggregate data and generates reports. 36 objectives are organized into nine areas of development and learning. The first four are major areas of child development and learning:

1. Social-Emotional Development
2. Physical Development
3. Language Development
4. Cognitive Development

The early learning standards are organized into the following five areas:

1. Literacy
2. Mathematics
3. Science and Technology
4. Social Studies
5. The Arts

Each Area of Development is further subdivided into Objectives and Dimensions.

Teaching Strategies GOLD provides an overview of each area of development and learning, the research foundation for each objective, progressions of development

and learning and a color coded rating scale.

Training services related to Teaching Strategies GOLD are shaped to meet the unique needs of the clients. All customers will have access to a free-e-learning resource. For more information contact the help desk at
