

Early On[®] Michigan Implementation Manual

Early On Michigan Implementation Manual is intended for *Early On* Coordinators, administrators, service coordinators, and other individuals who work within the *Early On* system. It is a resource for understanding the *Early On* system, federal and state requirements, and strategies for implementation. Many sections begin with a statement about the intent of the requirement. In every section guidance is presented regarding the implementation of the requirements. The federal and state legislation and regulations are referenced toward the end of many of the sections. A list of forms and other resources related to the topic, when available, are also included at the close of each section and in the Appendices.

This manual is designed to be accessible, cost effective, and easy to update. Each section title in the table of contents is a link that takes you directly to that section of the manual. Links to additional resources are also included within each manual section. (During the initial development of the manual, the completed sections will show in the table of contents as links. Other topics are listed in the table of contents to indicate future topics to be added.)

The manual will always remain a work in progress, continually being updated with the most current information about implementation of *Early On*. It is hoped that *Early On* Michigan Implementation Manual will be a useful tool to early interventionists as they work with Michigan's infants and toddlers and their families.

This publication was produced and distributed through an Individuals with Disabilities Education Act (IDEA) Mandated Activities Project for Clinton County Regional Educational Service Area Office of Innovative Projects – *Early On* Training and Technical Assistance (CCRESA OIP EOT&TA), awarded by the Michigan Department of Education. This document is in the public domain and may be copied for further distribution when proper credit is given.
